

Curriculum Update 2014

We have adapted our school curriculum in light of the New National Curriculum, introduced in September 2014. We continue to provide a broad, balanced curriculum that:

- engages children through exciting, thematic topics that are developed through our skills based curriculum
- builds on key literacy and numeracy basic skills
- utilises features of our local and wider communities, including a wide range of extra-curricular activities
- is adapted to suit the needs of all learners in line with our SEN local offer
- prepares our children for the opportunities, responsibilities and experiences of life in modern Britain
- helps children to develop their sense of identity and belonging and can make a positive contribution to society
- enables children to develop respect for and sensitivity to others, in particular those whose faiths and beliefs are different from their own, to combat prejudice
- promotes the spiritual, moral, cultural, mental and physical development of children
- prepare children for the opportunities, responsibilities and experience of later life
